

**A suggested letter to the editor:**

**From Rich Woldt Sturgeon Bay, WI 608-712-7880**

**Suggested title: Registering guns will backfire! (496 words):**

## **Start here....**

**Sheepdogs tell us, "To skin a cat you've got to first out-shoot them!"** Clipping their nails, debating their personality disorders, and waiting to be rescued might work, but don't bet your life on it. Take away their claws and they'll poison your food or blow up your dog dish. Go to [www.RMLearningCenter.com](http://www.RMLearningCenter.com) and become a sheepdog.

**So goes the debate on gun registries, and background checks.** In the real world, gun-runners have little trouble by-passing registries while back-room clip manufacturers retrofit guns with high velocity clips and silencers. If assault weapons need to be monitored, it's more cost effective to log them in at local veteran organizations and then use InfraGard suspicious activity reports to identify psychotic shooters in the area. **A Federal gun registry will only expose citizens to cyber crooks downloading GPS coordinates for their next home invasion. Already, Mexico has requested a list of gun owners living in boarder states. Once they have it, drug lords will launch burglaries across the region to acquire weapons.**

**Few gun owners go through life without going through multiply background checks** triggered by loan applications, changes in employment, job promotions and certifications, military and civil service, joining InfraGard, ASIS International, Homeland Security Partnerships, attaining a concealed carry permit, or a license to practice law, drive a school bus, or sell real estate. All require not only a background check but periodic updates to ensure nothing has changed. **Let's take advantage of those already "checked-out" and log them into local veteran organizations and HLS partnerships. That'll provide school districts with pre-qualified armed volunteers and help ensure we're mission ready to respond during the next local crisis.**

**While we debate if and when Hitler said "This year will go down in history! For the first time, a civilized nation has full gun registration! Our streets will be safer, our police more efficient, and the world will follow our lead into the future!"** China cyber crooks are sabotaging corporate America, Washington is giving tanks and fighter jets to Egypt knowing [Mohamed Morsi calls Israel' Jewish decedents blood suckers, apes, and pigs,](#) and Iran and North Korea are gearing up to threaten the world with nuclear war.

**It's time to strengthen our national defense.** It's time to rebuild our veteran organizations. It's time to take advantage of associations such as the Firearm Owners, Ranges, Clubs, and Educators Association (FORCE), who's focus is on "Teaching Freedom" through safe gun handling practices and competitive skill development. VP Biden tells women, "Just shoot a double barrel shotgun in the air." It's time to give

women guns and teach them how to shoot. Go to [www.agirlandagunclub.com](http://www.agirlandagunclub.com) to be smarter than a Biden, and [www.wi-force.org](http://www.wi-force.org) to join the FORCE.

FYI: In my opinion participating in a gun buy-back program because you think criminals have too many guns is like having yourself castrated because you think your neighbors have too many kids!" It's time to give Washington a piece of your mind. Go to [www.DoorCounty.com](http://www.DoorCounty.com) and shoot from the hip.

## End Here

It's time we stop disarming America while we're selling assault rifles to Mexican drug lords and giving high-tech combat tanks and fighter jets to Egypt [SOURCE? [Click here](#) and [Click here](#) ], knowing Egypt's President Mohamed Morsi is a staunch supporter of the Muslim Brotherhood, calling our ally Israel's Jewish descendents "blood suckers, apes, and pigs, and our retreat from Afghanistan a sign of weakness (SOURCE [Click here](#) and [click here](#)). Now, Washington plans to reduce defense systems on which our allies in Europe depend." [SOURCE? [Click here](#) and [click here](#)] Doesn't Washington understand that'll only embolden terrorists already embedded in our society and put a smile on Communist China who's poised to foreclose on our national debt?
